Re: 50/50 Fund Request

Chairman Rambo,

The Middleburg Volunteer Fire Department recognizes the need to replace our 1998 Pierce Pumper currently designated as Engine 603. In accordance with FRG 4.3.3 we have started this process of replacing it and would like to request a 50/50 split of County Funds. The current price on our new Engine would be \$625,115.00, We would like to request \$312,000 in county funds to help offset the cost of this truck. Thank you for considering our request.

Brad Draisey

President

Joseph Murphy
